Sun Needs: Full Sun-Part Shade

Soil Drainage: Moist-Wet

Foliage: Deciduous

Uses:

- Attracts Pollinators
- Salt Tolerant
- Shade

**Common Name:** Crabapple, Prairifire  
**Scientific Name:** *Malus* 'Prairifire'

Height at Maturity: 20'

Width at Maturity: 15'

Sun Needs: Full Sun

Soil Drainage: Moderate-Wet

Foliage: Deciduous

Uses:

- Attracts Wildlife
- Blooms April-May
- Bold Landscape Statement

**Common Name:** Kentucky Coffeetree, Espresso  
**Scientific Name:** *Gymnocladus dioica* 'Espresso'

**\*Podless**

Height at Maturity: 50'

Width at Maturity: 30'

Sun Needs: Full Sun

Soil Drainage: Moderate

Foliage: Deciduous

Uses:

- Drought/Salt Tolerant
- City Landscapes
- White blooms in Spring

**Common Name:** Maple, Autumn Blaze  
**Scientific Name:** *Acer x freemanii* 'Jeffersred'

**\*Toxic to livestock.**

Height at Maturity: 40'-50'

Width at Maturity: 30'-40'

Sun Needs: Full Sun

Soil Drainage: Well Drained

Foliage: Deciduous

Uses:

- City Landscapes
- Bold Landscape Statement
- Drought Resistant

**Common Name:** Maple, Celebration  
**Scientific Name:** *Acer x freemanii* 'Celzam'

**\*Toxic to livestock.**

Height at Maturity: 40'-50'

Width at Maturity: 20'-35'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Well Drained

Foliage: Deciduous

Uses:

- City Landscapes
- Shade
- Fast-Grower (3-7ft/year)

**Common Name:** Maple, Fall Red

**Scientific Name:** *Acer rubrum*

Height at Maturity: 40'-70'

Width at Maturity: 30'-50'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Moist-Wet

Foliage: Deciduous

Uses:

- Bold Landscape Statement
- Shade

**\*Toxic to livestock.**

**Common Name:** Maple, Norway  
**Scientific Name:** *Acer platanoides*

Height at Maturity: 40-60'

Width at Maturity: 50'

Sun Needs: Full Sun

Soil Drainage: Adaptable, Tolerates Drought

Foliage: Deciduous

Uses:

- Shade
- Use in Urban or Forest Setting

**Common Name:** Maple, Red Sunset  
**Scientific Name:** *Acer rubrum* 'Franksred'

Height at Maturity: 45'-50'

Width at Maturity: 35'-40'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Moist

Foliage: Deciduous

Uses:

- Often 1st to change color in Autumn
- Strong Wood

Common Name: Maple, Sugar  
Scientific Name: *Acer saccharum*

Height at Maturity: 60'-75'

Width at Maturity: 40'-50'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Drought-Well Drained

Foliage: Deciduous

Uses:

- Attracts Wildlife
- Property Border or Windbreak

\*Toxic to livestock.

\*Intolerant of compacted soil and salt spray

Common Name: Oak, Bur

Scientific Name: *Quercus macrocarpa*

Width at Maturity: 80'

Sun Needs: Full Sun

Soil Drainage: Well-Drained - Wet

Foliage: Deciduous

Uses:

- Acorns
- Shade
- Heritage Tree (200-300 year lifespan)

\*Toxic to livestock.

**Common Name:** Oak, Chinkapin

**Scientific Name:** *Quercus muehlenbergii*

**\*Toxic to livestock.**

Height at Maturity: 50'-60'

Width at Maturity: 50'-60'

Sun Needs: Full Sun

Soil Drainage: Moderate

Foliage: Deciduous

Uses:

- Acorns
- Attracts Wildlife
- Strong Wood

Common Name: Oak, Red

Scientific Name: *Quercus rubra*

Height at Maturity: 60'-75'

Width at Maturity: 45'

Sun Needs: Full Sun

Soil Drainage: Well-Drained

Foliage: Deciduous

Uses:

- Acorns
- Shade

\*Toxic to livestock.

Common Name: Oak, Swamp White

Scientific Name: *Quercus bicolor*

Height at Maturity: 50'-60'

Width at Maturity: 50'-60'

Sun Needs: Full Sun

Soil Drainage: Well Drained

Foliage: Deciduous

Uses:

- Acorns
- Attracts Wildlife
- Large Leaves

\*Toxic to livestock.

Common Name: Oak, White  
Scientific Name: *Quercus alba*

Height at Maturity: 50'-80'

Width at Maturity: 50'-80'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Drought-Moist

Foliage: Deciduous

Uses:

- Acorns
- Attracts Wildlife
- Strong, Durable Wood

\*Toxic to livestock.

Common Name: Ohio Buckeye  
Scientific Name: *Aesculus glabra*

Height at Maturity: 20'-40'

Width at Maturity: 20'-40'

Sun Needs: Partial Shade

Soil Drainage: Moderate

Foliage: Deciduous

Uses:

- Nut Production
- Smaller Yards

**\*Toxic: contains aesculin. Humans should not consume any part of the tree.**

**Common Name:** Redbud, American Single Stem

**Scientific Name:** *Cercis canadensis*

Height at Maturity: 20'-30'

Width at Maturity: 25'-35'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Well Drained

Foliage: Deciduous

Uses:

- Smaller Yards
- Bold Landscape Statement

**Common Name:** Serviceberry, Lamarckii

**Scientific Name:** *Amelanchier lamarckii*

**\*Toxic to livestock.**

Height at Maturity: 15'-25'

Width at Maturity: 15'-25'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Well Drained-Moist

Foliage: Deciduous

Uses:

- Attracts Pollinators
- Informal Hedges/Screens

# Container Grown Hedge Plants

**Common Name:** Dogwood, Bailey's Red Osier

**Scientific Name:** *Cornus sericea*

Height at Maturity: 6'

Width at Maturity: N/A

Sun Needs: Full-Part Sun

Soil Drainage: Moderate

Foliage: Deciduous

Uses:

- Garden Backdrop
- Informal Hedge

**Common Name:** Lilac, Common Purple  
**Scientific Name:** *Syringa vulgaris*

Height at Maturity: 10'-12'

Width at Maturity: 10'-12'

Sun Needs: Full-Part Sun

Soil Drainage: Well-Drained

Foliage: Deciduous

Uses:

- Informal Hedge or Screen
- Attracts Pollinators

**Common Name:** Viburnum, Arrowwood

**Scientific Name:** *Viburnum dentatum*

Height at Maturity: 6'-10'

Width at Maturity: 6'-10'

Sun Needs: Full-Part Sun

Soil Drainage: Moderate-Well Drained

Foliage: Deciduous

Uses:

- Hedge
- Late May-Mid June Flowers
- Decorative Berries

**Common Name:** Viburnum, Nannyberry

**Scientific Name:** *Viburnum lentago*

Height at Maturity: 14'-16'

Width at Maturity: 6'-12'

Sun Needs: Full-Part Sun

Soil Drainage: Well Drained

Foliage: Deciduous

Uses:

- Hedge
- Flowers Late May-Mid June
- Decorative Berries

# Container Grown Evergreens

**Common Name:** Pine, Eastern White

**Scientific Name:** *Pinus strobus*

Height at Maturity: 50'-80'

Width at Maturity: 20'-40'

Sun Needs: Full Sun- Part Shade

Soil Drainage: Well-Drained-Moist

Foliage: Evergreen

Uses:

- Attracts birds & butterflies
- Shade

**Common Name:** Spruce, Black Hills

**Scientific Name:** *Picea glauca var. densata*

Height at Maturity: 55'

Width at Maturity: 25'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Well-Drained

Foliage: Evergreen

Uses:

- Smaller Yards
- Mass Planting for a property line etc.
- Windbreak

**Common Name:** Spruce, Colorado

**Scientific Name:** *Picea pungens*

Height at Maturity: 50'-75'

Width at Maturity: 10'-20'

Sun Needs: Full Sun

Soil Drainage: Well Drained-Wet

Foliage: Evergreen

Uses:

- Mass Planting for Property Line
- Wildlife
- Windbreak

**Common Name:** Spruce, Norway

**Scientific Name:** *Picea glauca* 'Densata'

Height at Maturity: 20'-40'

Width at Maturity: 10'-15'

Sun Needs: Full Sun-Part Shade

Soil Drainage: Well-Drained-Moist

Foliage: Evergreen

Uses:

- Great for privacy
- Shade
