VALUE STATEMENTS: *What is important as the District conducts business with our client, cooperators, public entities, businesses and employees?*

- Promote and project a friendly atmosphere viewed by all as:
 - Informative
 - Cooperative
 - Selfless
 - Helpful
 - Respectful
- “Go To” organization for natural resources related information and assistance
- Maintain highly motivated staff who enjoy servicing customers and getting conservation on the land

Objective 1: Water Quality, Conservation, and Management

Goal: To promote the chemical, physical, and biological characteristics of the water resources of Kankakee County to meet or exceed goals as outlined in the Nutrient Loss Reduction Strategy (NLRs), and to maintain and enhance surface and subsurface drainage systems in an environmentally sound manner to improve agricultural production, improve water quality, and minimize adverse effects on urban and rural areas.

Objective 2: Soil Health and Sustainable Agriculture

Goal: To monitor and reduce soil erosion and sedimentation to ensure long-term productivity of the soil. To promote sustainable and regenerative practices that improve soil health and advance climate resilience.

Objective 3: Land Use

Goal: To preserve prime agricultural land and through wise land use and development that is compact and contiguous to existing development. To encourage farmland protection through new and existing programs and collaboration with local government.

Objective 4: Wildlife and Habitat Development

Goal: To increase and enhance both urban and rural areas of the county established in prairie, wetland, and woodland habitats.

Objective 5: Education and Outreach

Goal: To show the public a better way to manage our natural resources while building climate resilient communities through conservation centric events, hands-on educational programs, and media.

Objective 6: District Operations

Goal: Identify additional funding sources, including grants and sponsorship, which allow continued operation while fulfilling vision and mission of the SWCD. Manage SWCD-NRCS operations for greatest efficiency in meeting resource objectives.
